

FRANK SCOTT

Merrimac, WI | www.frank-scott.com
+1 (608) 434-7450 | franksixer@gmail.com

Direct and polite demeanor, always ready to give and receive constructive feedback. Proven essential member of a quality assurance team known for providing consistent, trustworthy results. Track record of completing tasks in a timely and accurate manner. Fast learner with an interest in advancements in technology and improving processes.

EXPERIENCE

CALIBRATION TECHNICIAN

Milwaukee Valve Company | Prairie du Sac, WI
2016 – 2023

Calibrate, monitor, and repair measuring equipment used throughout the company such as calipers, micrometers, and indicators. Promote quality with honest, reliable, and timely results. Review and document certifications of calibration from outside sources. Check-in/out gages for machinists per blueprint callouts. Keep equipment clearly labeled and organized for ease of use and to prevent errors. Assist inspectors with first piece approval of machined parts.

ASSEMBLER

Milwaukee Valve Company | Prairie du Sac, WI
2014 – 2016

Build and test a wide variety of marine valves made for U.S. Navy ships. Consistently deliver high quality products while meeting monthly production goals.

INSTRUCTOR

Id Tech Camps | Tempe, AZ
2013

Teach youth the technical aspects of several game-making tools. Construct daily lessons and lead recreational activities for students.

EDUCATION

ASSOCIATE IN ARTS – GAME ART AND ANIMATION

Madison Media Institute
2010 – 2012

- Relevant coursework: Visual Design & UI/UX
 - GPA 3.96
-

FULL STACK JAVASCRIPT

The Odin Project
2024 – 2026

Self-directed learning guided by an open-source curriculum, demonstrating initiative and consistency in acquiring technical skills. Developed full-stack applications using React, Node.js, Express, and PostgreSQL in an environment mirroring real-world development workflows.
