## PROFESSIONAL SUMMARY

---

Junior full-stack web developer with experience building applications using JavaScript, React, Node.js, Express, and PostgreSQL through intensive project-based learning. Background in quality assurance and precision technical work with strong problem-solving, process improvement, and collaboration skills. Seeking a frontend or full-stack developer role focused on building reliable, user-friendly web applications.

## TECHNICAL SKILLS

---

**Languages:** JavaScript, HTML5, CSS3, SQL, Python, C++

**Frontend:** React, Vite, Responsive Design, UI/UX Principles

**Backend:** Node.js, Express.js, Prisma ORM

**Database:** PostgreSQL

**Tools:** Git, GitHub, npm, VS Code, REST APIs

**Concepts:** CRUD Applications, Authentication, MVC Architecture, Test-driven Development

## EXPERIENCE

---

### Calibration Technician

Milwaukee Valve Company | Prairie du Sac, WI

Apr 2016 – May 2023

Maintained and calibrated precision measurement equipment supporting manufacturing operations. Ensured compliance through accurate documentation, inspection support, and process reliability. Collaborated across departments to maintain quality standards and production efficiency.

### Assembler

Milwaukee Valve Company | Prairie du Sac, WI

May 2014 – Apr 2016

Assembled and tested marine valves for U.S. Navy applications while meeting production goals. Followed technical specifications with strong attention to detail and product quality.

### Instructor

Id Tech Camps | Tempe, AZ

May 2013 – Jul 2013

Taught students game development tools and technical fundamentals through structured lessons. Communicated technical concepts clearly to students with varying experience levels.

## EDUCATION

---

### Full Stack JavaScript Curriculum

The Odin Project

Jan 2024 – Apr 2026

Project-based full-stack development curriculum covering React, Node.js, Express, PostgreSQL, Git workflows, and responsive design.

### Associate in Arts, Game Art & Animation

Madison Media Institute | 3.96 GPA

Aug 2010 – Jun 2012

Education in video game art and animation with experience in 2D and 3D design, hand-keyed and motion capture animation, and digital media production using tools like Autodesk Maya, Adobe Photoshop, Adobe After Effects, and Unreal Engine providing a strong foundation in visual design and user-focused development.
